

```
public static int[] compute(int[] numbersArray) {  
    for (int i = 0; i <= numbersArray.length/2 - 1; i++) {  
        int tmp = numbersArray[i];  
        numbersArray[i] = numbersArray[numbersArray.length - i - 1];  
        numbersArray[numbersArray.length - i - 1] = tmp;  
    }  
    return numbersArray;  
}
```

A complex network diagram is overlaid on the code. It consists of many circular nodes of various colors (purple, yellow, orange, red, grey) connected by thin, multi-colored lines. The nodes are distributed across the image, with a higher density in the center and right side, partially obscuring the code text.
