

The diagram consists of a series of points connected by lines. The points are colored in a gradient from purple to yellow. The lines are also colored in a gradient from purple to yellow. The points are arranged in a roughly horizontal line, with the first point on the left and the last point on the right. The lines connect the points in a sequence, with some points having multiple lines connecting them to other points. Below the diagram is the mathematical expression $8-7-9-6+2+3-2=?$.

$$8-7-9-6+2+3-2=?$$
