

An abstract graphic featuring a series of colored dots (purple, pink, red, orange, yellow) connected by thin, curved lines, creating a network-like pattern across the text. The dots are of varying sizes and are positioned at various points along the lines, which intersect and overlap, creating a complex, web-like structure. The colors transition from dark purple at the top to bright yellow at the bottom.

The science of the Earth is perhaps the most varied of all the natural sciences. It is concerned with the origin of the planet Earth, its history, its shape, the materials forming it, and the processes that are acting and have acted on it. The searched term describes one of several related subjects commonly grouped as the Earth sciences, or geoscience. The earth scientists, specialized to this field, are concerned primarily with rocks.
