

The image displays a mathematical expression $5 - 6 - 9 - 3 - 6 + 8 - 6 = ?$ in a large, bold, black font. Overlaid on this expression is a network diagram consisting of numerous semi-transparent colored circles (nodes) in shades of grey, purple, pink, yellow, and orange, connected by thin lines. The nodes are distributed across the equation, with a high concentration in the middle section between the minus sign before the '3' and the plus sign before the '8'. Some nodes are positioned directly over the numbers, while others are placed between the operators. The overall effect is a complex, multi-layered visual representation of the arithmetic problem.

$$5 - 6 - 9 - 3 - 6 + 8 - 6 = ?$$
