```
compute(String text) {
                               i >= 0; i--) {
                      <= 'z') || (c >= 'A' && c <= 'Z')) {
        result++
        break;
return result;
```
