```java
public static String compute(String input) {
    String a = "";
    String b = "";
    for(int i = input.length()-1; i >= 0; i--){
        a = input.charAt(i);
        b = b + input.charAt(i);
    }
    return a + b;
}
```
