```java
public static String compute(String input) {
    String s1 = "";
    for(int i = 0; i < input.length(); i++){
        if(i%2 == 1){
            s1 = s1 + input.charAt(i);
        }
    }
    return s1;
}
```
